## Experience

### Frontend Developer @Media.Monks

March 2022 - Present // Palermo, BA

Responsible for developing and leading projects for an exclusive client. Collaborate closely with multidisciplinary teams to ensure successful outcomes. I work with technologies like Lit.dev, GSAP, TypeScript, Three.js, and WebGL for creating innovative and engaging digital experiences.

### Frontend Developer @Glamit

June 2020 - February 2022 // Villa Crespo, BA

Craft and maintain a diverse range of ecommerce websites. I focus on developing solutions using different languages, platforms, and frameworks like React, Vtex IO, PHP, and Magento. In addition to my responsibilities, I had the opportunity to lead and mentor a team of three junior developers. Collaboration is a key aspect of my role, as I work closely with PMs, clients, and designers to ensure seamless communication and deliver exceptional results.

### Frontend Developer @Woonky

July 2019 - June 2020 // Colegiales, BA

I worked as a solo developer, handling the maintenance and creation of websites from scratch. Using React, Wordpress, and a bit of Laravel. I catered to a diverse range of clients and internal projects. Collaborating closely with both clients and designers, I ensured that the end product met their requirements. Thorough testing was conducted on the websites I built to guarantee optimal functionality.

### Frontend Developer @GlobalDardos

October 2018 - June 2019 // Núñez, BA

Specialized in writing complex HTML markup for responsive mailing campaigns, ensuring optimal performance in email clients such as Mail10, Outlook, and Gmail. Additionally, I focused on project maintenance using PHP, Wordpress, and Javascript.

### UX Designer & Frontend Developer @Massive

January 2018 - September 2018 // Palermo, BA

I gained valuable experience in designing and prototyping websites and apps, conducting benchmarks, and coding with HTML, CSS, JavaScript websites. Collaborating with clients I delivered tailored design solutions, showcasing my versatility and ability to create intuitive user experiences.
